Black Hole is a twelve-issue comic book limited series written and illustrated by Charles Burns and published first by Kitchen Sink Press, then Fantagraphics. It was released in collected form in 2005 by Pantheon Books. The story deals with the aftermath of a sexually transmitted disease that causes grotesque mutations in teenagers. Burns has said that the mutations can be read as a metaphor for adolescence, sexual awakening and the transition into adulthood.

Charles Burns' Black Hole is not just one of the best graphic novels I've read in the past few years, it's one of the best novels period. Taking place in suburban Seattle in the 70's, and featuring rotating POV's of various high-school students, Burns' top-notch writing, characterization, and artwork perfectly capture what it's like to be a teenager, complete with all the fears, insecurities, triumphs, and tragedies that seem so important at the time.
